Professional Summary

Artificial Intelligence and Data Science undergraduate with a strong academic record (CGPA 9.45/10) and experience in Full-Stack Development, Machine Learning, and Software Engineering. Proven ability to design and build scalable MERN applications, AI-powered systems, and real-time collaborative platforms. Solid foundation in Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, and Restful API development.

Technical Skills

Languages: C, C++, Python, Java

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, JWT Authentication, WebSockets

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, VS Code, MongoDB Atlas

Core Subjects: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering

Projects

Real-Time Collaborative Code Editor

2025

- Built a scalable collaborative coding platform enabling simultaneous multi-user editing via WebSockets, with Monaco Editor integration for syntax highlighting and code completion.
- Implemented JWT-based authentication and secure session management; added AI-powered code assistance using LLM APIs to improve developer productivity.
- Developed real-time chat, meeting/session management, and collaborative workspace features to enhance team communication.
- Stack:** React.js, Node.js, Express.js, MongoDB, Socket.IO, JWT

College Recommendation System

2026

- Built a machine learning recommendation engine suggesting colleges based on marks, preferences, location, and budget, including data cleaning, preprocessing, and feature engineering with Pandas and NumPy.
- Trained models using Scikit-Learn, designed REST APIs, and developed a user-friendly web interface for ranked recommendations.
- Implemented filtering and comparison features allowing students to evaluate multiple colleges based on placements, fees, and rankings.
- Stack:** Python, Scikit-Learn, React.js, Node.js, MongoDB

AI Student Mentor Chat-bot

2025

- Developed an AI-powered academic assistant providing study guidance, roadmap generation, and career recommendations using NLP techniques.
- Built scalable backend API with Fast-API and responsive frontend components for intelligent student interaction.
- Designed personalized learning recommendations and progress-tracking features to improve student engagement.
- Stack:** Python, Fast-API, React.js, Machine Learning

Internship Experience

Web Development Intern — Innovation Hub

2024

- Improved responsive web applications using HTML, CSS, JavaScript, PHP, and MySQL.
- Implemented backend functionalities, optimized SQL queries, and built CRUD-based content management systems.
- Collaborated on testing, debugging, and performance optimization to improve application reliability.

Education

B.Tech in Artificial Intelligence and Data Science

2025 – 2028

Vishwakarma Institute of Technology (VIT), Pune

CGPA: 9.45 / 10

Diploma in Computer Engineering

2022 – 2025

MET Bhujbal Knowledge City, Nashik

Percentage: 94.00%

Secondary School Certificate (SSC)

2022

Maharashtra State Board

Percentage: 89.40%

Achievements & Leadership

- Solved 200+ Data Structures and Algorithms problems on LeetCode and GeeksforGeeks.
- Built multiple full-stack and AI-based projects using modern technologies.
- Project Coordinator, ICON Club, VIT Pune; led a team of 5 members for project execution and coordination.
